

# ZV7 318.T-P

**METTEM® NEW PRODUCT**  
**MORTICE CYLINDER LOCK (CASE)**

**HIGHEST SECURITY CLASS ACCORDING TO GOST 5089-2011**

- The latch is fixed while the mechanism is locked
- The handle is disconnected from the mechanism at the first revolution of the key
- There has been used an innovative METTEM case for the lock (a patent acquired)
- Case dimensions (107x175x24,5 mm) allow to set up the lock in doors with different thickness
- Lock weight is 1 kg 800 gr
- There are two types of forends for the lock - a large one (35x350x3 mm) and a narrow one (30x274x3 mm)
- 12 sets (variants) of the lock
- Any cylinder fits the lock
